## 2022-2023 Chromebook 1:1 Program and Protection Plan

In an effort to create greater efficiencies in the classroom and maximize instructional time, Rumson-Fair Haven Regional High School will be providing every RFH student with a Chromebook device to start of the school year. With each student having a school issued chromebook, our teachers will be able to have certain programs and software “pushed out” to all devices through our technology department and be able to assess students more readily on the device. The consistency of having the same devices will also allow for minimal downtime as staff troubleshoots any potential issue that may arise with the technology. To that end, the expectation is that all students will have the RFH Chromebook, fully charged, with them daily for instruction.

### When will students receive the Chromebook device?

All students will be receiving a device that is assigned to them during Physical Education classes on the first day of school, September 6, 2022.

### What is the cost to our family?

The assigned Chromebooks will be “checked out” to students similar to textbooks. There will not be a mandatory fee for a student/family to receive a device.

There is an option to pay for a \$50 Chromebook Protection Plan per device (maximum of \$100 for a family). The Protection Plan will be valid for the current school year and will need to be renewed each year.

- The fee will include the cost of repairs equal to the replacement of the device if accidentally damaged.
- In the event a Chromebook replacement is utilized due to damage, the student has the option to purchase a new Protection Plan for \$50.
- If a Chromebook is damaged a second time, and the student did not purchase a second Protection Plan, the student will be charged \$340 and provided with a replacement Chromebook.
- All damage to a device must be reported to the Media Center (*Classroom 209*) immediately.
- If the Chromebook is lost or stolen, the student will be charged \$340 and provided with a replacement Chromebook.

If a Chromebook Protection Plan is not paid, a damaged device will be charged \$340 when replaced.

**Payment Information:** All payments will be collected through MySchoolBucks. [Please click here to pay online.](#)

### What are the student expectations?

It is expected that students have their RFH Chromebook device with them daily and charged in preparation for instruction. Loaners will be available for chromebooks that are not working properly, however, they will not be available for students whose chromebooks are not charged. Students without a device may be deemed unprepared for class that day.
